FINAL REPORT

"Theoretical Studies on the Chromosphere,
Corona, and Solar Wind"

NASA GRANT NAGW-76

to the

University of New Hampshire

under the

NASA Space Physics Theory Program

for the period

June 1980 – December 1990

Joseph V. Hollweg 5/7/92 Martin A. Lee 5/7/92
Joseph V. Hollweg Martin A. Lee
Co-PI Co-PI

(NASA-CR-192116) THEORETICAL
STUDIES ON THE CHROMOSPHERE,
CORONA, AND SOLAR WIND Final
Report, Jun. 1980 – Dec. 1990 (New
Hampshire Univ.) 10 p

N93-19932

Unclass

G3/92 0143809

PRECEDING PAGE BLANK NOT FILMED

NAGW-76 PUBLICATION LIST

1. Bogdan, T.J., M.A. Lee, and P. Schneider, Coupled Quasilinear Wave Damping and Stochastic Acceleration of Pickup Ions in the Solar Wind, *J. Geophys. Res.*, 96, 161, 1991.
2. Burlaga, L.F., L.W. Klein, J.D. Scudder, and P.A. Isenberg, Pressure balanced structures between 1 AU and 24 AU and their implications for solar wind electrons and interstellar ions, *J. Geophys. Res.*, 95, 2229, 1990.
3. Chih, P.P. and M.A. Lee, A Perturbation Approach to Cosmic Ray Transients in Interplanetary Space, *J. Geophys. Res.*, 91, 2903, 1986.
4. Démoulin, P. and T.G. Forbes, Weighted Current Sheets Supported in Normal and Inverse Configurations, A Model for Prominence Observations, *Astrophys. J.*, 387, 394-401, 1992.
5. Fisk, L.A. et al., Impact of flares on the solar-terrestrial environment, in *Solar Terrestrial Physics: Present and Future*, ed. by D. Butler and K. Papadopoulos, NASA Ref. Publ. 1120, 1984.
6. Fisk, L.A., Summary remarks, in *The Sun and the Heliosphere in Three Dimensions*, ed. R.G. Marsden, D. Reidel, 493, 1986.
7. Fisk, L.A., The anomalous component: its variation with latitude and related aspects of modulation, in *The Sun and the Heliosphere in Three Dimensions*, ed. R.G. Marsden, D. Reidel, 401, 1986.
8. Forbes, T.G. and E.R. Priest, A Comparison of Analytical and Numerical Models for Steadily-Driven Magnetic Reconnection, *Reviews of Geophys.*, 25, 1583, 1987.
9. Forbes, T.G. and E.R. Priest, Numerical Simulation of Reconnection in an Emerging Magnetic Flux Region, *Solar Physics*, 94, 315, 1984. (A synopsis of this paper is published in *Adv. Space Res.*, 4, 53, 1984).
10. Forbes, T.G. and J.M. Malherbe, A Shock-Condensation Mechanism for Loop Prominences, *Astrophys. J. Lett.*, 302, L67, 1986.
11. Forbes, T.G. and J.M. Malherbe, A Reconnection Mechanism for Coronal Condensations in Two-Ribbon Flares, in *The Lower Atmosphere of Solar Flares*, (ed. D.F. Neidig), NSO, Sacramento Peak, NM, p. 443, 1986.
12. Forbes, T.G. and P.A. Isenberg, A Catastrophe Mechanism for Coronal Mass Ejections, *Astrophys. J.*, 373, 294, 1991.
13. Forbes, T.G., and P.A. Isenberg, A catastrophe mechanism for coronal mass ejections, *Astrophys. J.*, 373, 294, 1991.

14. Forbes, T.G., Basic Properties and Models of Solar Prominences, in *The Physics of Magnetic Flux Ropes* (eds. C.T. Russell, E.R. Priest, and L.C. Lee), invited paper, AGU Monograph 58, p. 295, 1990.
15. Forbes, T.G., Current Evolution in a Numerical Emerging Magnetic Flux Model, in *Measurements of Solar Vector Magnetic Fields*, (ed. M.J. Hagyard) NASA CP-2374,
16. Forbes, T.G., Fast-Shock Formation in Line-tied Magnetic Reconnection Models of Solar Flares, *Astrophys. J.*, 305, 553, 1986.
17. Forbes, T.G., Formation and Support of Prominences, in *Coronal and Prominence Plasmas*, (ed. A. Poland), NASA CP-2442, p. 21, 1986.
18. Forbes, T.G., The Role of Magnetic Reconnection in Flares and Prominence Eruptions, in *Basic Plasma Processes on the Sun*, (eds. E.R. Priest and V. Krishan), invited paper, IAU Symp. 142, Kluwer Academic Publishers, Dordrecht, p. 293, 1990.
19. Forbes, T.G., J.M. Malherbe, and E.R. Priest, The Formation of Flare Loops by Magnetic Reconnection and Chromospheric Ablation, *Solar Phys.*, 120, 185, 1989.
20. Forbes, T.G., Magnetic Reconnection and Solar Flare Loops, in *Small-Scale Plasma Processes*, (ed. A. Pederson), invited paper, ESA SP-275, Utrecht, p. 3, 1987.
21. Forbes, T.G., Magnetic Reconnection Models of Flares, in *Activity in Cool Star Envelopes*, (eds. O. Havnes, B.R. Pettersen, J.H.M.M. Schmitt, J.E. Solheim) invited paper, Kluwer Publishers, Dordrecht, p. 115, 1988.
22. Forbes, T.G., Magnetohydrodynamic Boundary Conditions for Global Models, in *Modeling Magnetospheric Plasma*, (eds. T.E. Moore and J.H. Waite, Jr.), invited paper, AGU Monograph 44, p. 319, 1988.
